PEACOCK DAHLIA FARMS

DAHLIALAND, NEW JERSEY

WE WANT to thank our thousands of friends and customers who have written us about their wonderful success with Peacock Dahlias. We also want to thank the tens of thousands of customers for their confidence in our stock. We are acknowledged the largest Dahlia growers in the world, with the largest and most comprehensive trial grounds. Here we grow all varieties under exactly the same condition and it is this rigid test that enables us to guarantee our stock to give entire satisfaction. This is also the acid test for our new creations, which enables us to introduce them with the full assuredness they are the best of their colors and types.

On the following pages will be found the plain truth, describing them as they grow with us, and the average color; for flowers vary in color at different seasons, on different soils, in different climates and under different conditions.

ROOTS vs. PLANTS We do not wish to enter any controversy, but want to say, so far as flowers are concerned, there is no difference in results between roots and plants. Given the proper care, they will give equally good results. Even the growers who recommend plants as better than roots insist on roots when buying, because they are worth more. Otherwise, plants would not be offered at half price.

Roots are more easily handled, ship long distances better, and give more roots for the following year. Plants, however, enable growers to offer varieties much more quickly, where stock is limited, and at lower prices than would be possible for roots. This also allows the dahlia enthusiasts to get just the varieties they want, even after root stocks are exhausted; or, to get twice as many plants for a given amount of money.

DAHLIALAND This is truly the land of Dahlias. It is reached by direct roads from Williamstown, New Brooklyn, Atco, Tansboro and Berlin; being 3 miles from Berlin and 1½ miles south of the Famous White Horse Pike on the Taunton Road through Tansboro to Williamstown.

NEW POST OFFICE, "DAHLIALAND" To reach us by railroad from Philadelphia, take ferry at foot of Chestnut Street, and ask for ticket to Williamstown Junction Station, Dahlialand.

We cordially invite all to visit DAHLIALAND and to see for themselves the **LARGEST DAHLIA FARMS IN THE WORLD—THE HOME OF THE WORLD'S BEST DAHLIAS.**

ORDER EARLY It will greatly facilitate shipments if orders are sent in early. We aim to send out orders the same or the next day after receipt, but during the rush season this is impossible—hence the advisability of ordering early. If you so desire we will reserve and send at planting time or any date you name, otherwise orders go out at once, weather permitting.

Guarantee. We guarantee every plant, bulb or root sent out by us to be just as represented, absolutely true to name, reach destination safely in perfect condition, and prove entirely satisfactory; we will cheerfully replace any that should prove otherwise. You run absolutely no risk in ordering from us.

Terms. Cash with order. Remittances may be made by Bank Draft, Post Office or Express Money Order, at our expense and our risk.

Forwarding. Dahlia Roots and Plants are sent by mail postpaid at prices named herein.

Errors. While we exercise every care, errors may occur occasionally. In such a case kindly notify us at once, and correction will be promptly and cheerfully made.

Name and Address. Be sure and write name and address plainly on each order or communication.

Reference. Berlin National Bank, Berlin, N. J.

How to grow **Eliza London Shepard**. The illustration shows the plant 6 feet high. The terminal bud was retained and 4 pairs of shoots removed and an 11 inch flower was produced. The next branches of course bloomed first, as fast as the terminal buds appear, the growths at the base of 4 pairs of leaves are removed. This throws the strength into the disbudded blooms. The lower branches as they develop are treated the same, giving a succession of blooms until killed down by frost. The plant in the illustration is 6 feet high.

PEACOCK DAHLIA FARMS, Dahlialand, New Jersey

PRESIDENT HOOVER Irregular Decorative. Size 8" x 5". Height 6½ feet. Color, peach red, blending to begonia rose; very bright and luminous. Reflex begonia rose, veined and suffused lavender. A thoroughbred, being a cross of Jersey Beauty and Papillon. The flowers have the beautiful formation and size of Papillon, with the depth, full high center and long stems of Jersey Beauty. The plant is of the Jersey Beauty type and habit of growth, but is larger, stronger and sturdier. It is an extremely early bloomer on long stems. The plant is a strong vigorous grower, with dark green healthy foliage that is resistant to disease and insects.

President Hoover did well every way the past season. Thousands of letters told us of the great success all over the world in all kinds of soil, in every climate, and under all conditions. It is absolutely healthy under all conditions. Being a tall grower, it should be staked, the same as Jersey Beauty.

See natural color reproduction on front cover page. Strong, field-grown roots, \$7.50 each; strong plants, \$3.75.

ELIZA LONDON SHEPARD I. D. Size 11" x 5". Height 6 feet. Color, a clear rich luminous orange gold; reflex, a deeper shade of the same color. It has been designated the Dahlia Beautiful. It is the ideal decorative form, and is carried facing to upright on long, straight, rigidly stiff stems, well supplied with foliage. The flowers are always perfect. It can be grown to a single bloom to the plant, with a perfect exhibition center, or can be pinched back two or three times and produce thirty-five or more large perfectly formed commercial blooms. The flower is extremely full but with long pointed bud-like center and lasts a long time on the plant or after being cut. The plant is a strong, vigorous, luxuriant grower that will grow anywhere and will be especially valuable in the South and on the Pacific Coast, because of its fullness of center late in the season, when so many good varieties come with open centers.

It was selected and named for Mrs. Shepard, who while president of the Women's Auxiliary Legion, and in attendance at the Legion convention in Philadelphia in 1926, visited our farms and was so enthusiastic over our Dahlias. It is truly the most glorious golden variety and worthy to bear the name of so notable a citizen of the golden state. We quote from a letter from a customer in Miami, when sending an order for January 15th planting. "The Dahlias sent us last September bloomed wonderfully. Eliza London Shepard was the most gorgeous; Marie, the freest bloomer and King Midas the largest. This is a most remarkable tribute to Dahlias blooming in Florida in the month of December. Strong field-grown roots, \$10.00 each; strong plants, \$5.00.

PETER PAN I. D. Size 8" x 4". Plant 2½ feet high, producing the flowers in abundance on good stiff stems. This is a massive flower on a pompon plant. The first of a new race, that will be universally grown on account of the beautiful rich, luminous pink color, massive size, exquisite formation and the fact that it can be grown in pots, on small grounds, as well as for beds and borders. A splendid memorial day pot plant. On account of the size and delightful color with the good stem, it makes a wonderful variety for cutting for the house, as well as an exhibition and commercial cut flower.

See natural color reproduction on 4th cover page. Strong plants, \$5.00 each. A few roots until exhausted, \$10.00 net.

PEACOCK INTRODUCTIONS FOR 1931

CONGRESSMAN WOLVERTON I. D. Size 8" x 4". Height 5½ feet. Color, bright luminous salmon pink. Early, free and continuous bloomer on long stiff stems. A cross of Rodman Wanamaker and Jersey Beauty, having all the good qualities of both. It has the upright growth, full high center and early blooming qualities of Jersey Beauty, with the branching habit, freedom of bloom and the beautiful formation of the back petals of Rodman Wanamaker. It is a good root maker and considered a more beautiful cut flower than Jersey Beauty, being in color, softer than Jersey Beauty but richer than its sport Kentucky. See illustration on page 31, which shows the beautiful formation and straight rigid stem. Congressman Wolverton is not only entirely distinct but has a rugged constitution and immune from attacks of diseases or insects. It is one of those varieties that blooms everywhere and is a great acquisition to the exhibition table, the garden and the select list of commercial cut flowers. Field grown roots, \$10.00 each; plants, \$5.00 each.

ESTHER DEAN BROWNING S. C. Size 8" x 3". Color, clear shrimp pink, tinting lighter toward center. This is the finest and best of all the light pink semi-cactus varieties for garden and cut flowers. Flowers can be grown much larger, but they lose their chief charm. Specimen plants can be grown with 25 to 100 perfectly formed, exquisitely colored flowers. It is our best seller in the light pink as a commercial cut flower, as they are produced on straight, rigidly stiff stems and are always full to the center and remarkable keepers. The plant is 5 feet high, insect and disease resistant. Field-grown roots, \$5.00; plants, \$2.50.

F. A. VENDRELL I. D. Size 8" x 3". Height 4½ feet. Color, a wonderful combination of yellow, orange and red shades, a typical spanish color. See half-tone reproduction of photograph on page 4. Plants, \$5.00.

FRAZIER F. D. Size 9" x 4". Height 4 feet. Color, rich glowing oriental red, tipped yellow with yellow at base of petals. See illustration and description page 3. Field-grown roots, \$5.00 each; plants, \$2.50.

PETER PAN I. D. Size 8" x 4". Height 2½ feet. Color, rich luminous pink. See description above and natural color reproduction on 4th cover page. Strong plants, \$5.00. A few roots until exhausted, \$10.00 net.

SPECIAL OFFER No. 8. One strong plant of each of the above 1931 introductions, five in all, by mail, postpaid, for \$17.50.

PEACOCK 1930 INTRODUCTIONS

A. LINCOLN S. C. Size 9" x 5". Height 5 feet. Color, bright spectrum red, reflex rose red. See illustration and description, page 6. Field-grown roots, \$5.00 each; strong plants, \$2.50.

CAPE HENLOPEN LIGHT F. D. Size 6" x 4". Height 4 feet. Color, creamy yellow, changing to creamy white, with a pure yellow cord around the edge of the petal, joining a yellow vein through the heart of the petal, forming a yellow tip. A strong sturdy grower, of branching habit, and an early and profuse bloomer. This was named by request in remembrance of the cherished Cape Henlopen Light that had served them and their forebears so long and faithfully. A gem for exhibition, cutting and the garden. Field-grown roots, \$5.00; strong plants, \$2.50 each.

EDYTH HOLLOWAY I. D. Size 10" x 5". Height 4 feet. Color, deep scarlet, shaded red, tipped yellow; reflex, veined lighter. A seedling of Zeus, but a much more robust grower. The flowers have heavy texture and are held on long stiff stems. It is an early bloomer, splendid grower, and continues to produce the giant flowers until frost. One of the most valuable for the garden, as well as exhibition and cutting. Field-grown roots, \$5.00 each; strong plants, \$2.50 each.

ELIZA LONDON SHEPARD I. D. Size 11" x 5". Height 6 feet. Color, clear rich luminous orange gold. See natural color reproduction on second cover page; black and white illustration page 16 and description above. Strong field-grown roots, \$10.00 each; strong plants, \$5.00 each.

JERSEY BEACON BALL Ball. Size 5½" x 4½". Height 3½ feet. Color, early in the season, geranium scarlet with buff reflex, but as the season advances, softens into a scarlet orange and finally a brilliant orange. It is one of our Jersey Beacon crosses, to get just what we did—a hybrid ball with a refined Jersey Beacon Color. It was one of the most popular shades as a cut flower last Fall, and one of the best sellers. It is of splendid form, the outer petals reflex to the stem, forming a ball. It has a full high center, with the unopened petals showing the buff reflex. A decidedly novel and valuable acquisition. The plant is a strong vigorous grower, of branching habit and an early, profuse and continuous bloomer on splendid stems. Exhibition, garden and cutting. Strong field-grown roots, \$2.00 each; 3 for \$5.50; \$20.00 per dozen. Strong plants, \$1.00 each; 3 for \$2.75; \$10.00 per dozen.

FRAZIER F. D. Size 8 to 9 inches across. 3 to 4 inches deep. Height 4 feet. Color, rich glowing oriental red, tipped yellow, with yellow at base of petals. The plant is of dwarf branching habit with a rugged constitution and thick leathery leaves. An early and continuous bloomer on rigidly stiff stems. Flowers are held above the foliage, facing to upright. It blooms under all conditions, never being effected by insects or disease. It is the best keeper we know, and the best cut flower. Even during the extreme heat we never had enough blooms of Frazier to fill our orders. The illustration above tells the whole story. This plant was pinched out twice, which gave a large number of branches. The terminal bud on these branches was retained and 2 to 3 pairs of laterals removed, with the result shown above. When the lower branches developed they were handled the same way, leaving the terminal bud and removing the growths from the base of 2 pairs of leaves as shown in the photograph. This gives a succession of bloom until killed down by frost. Field-grown roots, \$5.00 each; plants, \$2.50.

Peacock 1930 Introductions—Continued

KATHERINE KELLY 1. D. Size 10" x 4". Height 4 feet. See illustration and description page 7. Field-grown roots, \$5.00 each; strong plants, \$2.50 each.

KATHRYN CHARMAN F. D. Size 9" x 6". Height 5 feet. Another 1929 Roll of Honor Dahlia. Color combination most unusual, blending from rich bronzy red to golden bronze at the center. A cross of Amon Ra and Champagne, that has all the good qualities of both. Two vases of 8 blooms each on 4 ft. stems on the floor at the base of two columns at the Camden Show aided materially in making ours the most outstanding exhibit. Field-grown roots, \$5.00; strong plants, \$2.50.

"KATHRYN CHARMAN" is the most spectacular and effective autumn shade exhibition Dahlia

F. A. VENDRELL I. D. Size 8" x 3". Height 4½ feet. Color is a wonderful combination of yellow, orange and red shades, being typical spanish color, in fact, a block was described by a spanish visitor as a "Bit of Spain." It is a very early and profuse bloomer, always full to the center, even late in the season. One of the most profuse bloomers we have and has attracted more attention than any of our new Dahlias. It is a seedling of Rodman Wanamaker with the same rugged health and free branching habit, but an early bloomer on rigidly stiff stems. This is the variety that we have tested fully the past 3 years and has been known as the double Rodman Wanamaker. It is always in bloom. The above illustration reproduced from a photograph shows the very double, full high center and large size of the flower on the rigidly stiff stem. It also shows the Rodman Wanamaker foliage on the stem.

Thousands of our visitors consider this the best Dahlia we have ever introduced. There were 15 flowers open on the plant from which the above specimen was cut in early October, 1930. Strong plants, \$5.00.

Peacock 1930 Introductions—Continued

MARIE F. D. Size 7" x 4". Height 4 feet. See natural color reproduction and description on page 9. Field-grown roots, \$2.50 each. Strong plants, \$1.25 each.

ROBERT E. LEE S. C. Size 10" x 6". Height 5 feet. Another Roll of Honor Dahlia. See illustration and description on page 5. Field-grown roots, \$10.00; strong plants, \$5.00.

RUTH CAVALIER I. D. Size 9" x 4". Height 3½ feet. Color, deep rose pink, tinting lighter toward the creamy pink center. A seedling of Rodman Wanamaker crossed with Millionaire. Entirely distinct. The huge blooms are held erect on long, slender, rigidly stiff foot stalks. The plant is of dwarf branching habit, and is a free bloomer. One of the best for exhibition, garden and cutting. Field-grown roots, \$5.00 each; strong plants, \$2.50 each.

WHITE BREAK O'DAY I. D. Size 7" x 4". Height 5 feet. Color, pure white. As the name would imply, it is a pure white sport of Break O'Day, having all the splendid qualities of that old favorite, with the pure white color, making it one of the finest pure white garden varieties. Stock limited. Field-grown roots, \$2.00 each; strong plants, \$1.00 each.

SPECIAL OFFER No. 9. One strong root of each of the 1930 introductions, 12 in all (value if purchased singly, \$64.00), for \$55.00.

SPECIAL OFFER No. 10. One strong plant of each of the 1930 introductions, 12 in all (value if purchased singly, \$32.00), for \$27.50.

"PRESIDENT HOOVER" was the earliest bloomer and strongest grower on our Farms last year.

ROBERT E. LEE S. C. Size 10" x 5". Height 5 feet. Color, bright luminous cardinal red; reflex, lighter. Not only a 1929 Roll of Honor Dahlia, but in the list that made good in 1930. It has never been beaten on the exhibition table and stands in a class by itself as the best red semi-cactus for exhibition, garden and cut flowers during the entire season. It is not only a brilliant glowing red, but it does not burn or fade. The photograph above shows the shape and how it is carried on the cane stiff stem. The plant is a strong vigorous grower, always healthy and immune to insects. In our all season trials it was the 5th to bloom in a hundred and was easily the favorite red. The plants averaged a dozen blooms at all times from July until late October. The flowers were held from facing to upright on the rigidly straight stiff stems, and every flower was full to the center to the last. It was named by an enthusiastic Southerner as the first Dahlia he had seen that he considered was appropriate and worthy of the name. We have had wonderful reports from Robert E. Lee from all over the country. At Camden 5 blooms that were cut from 2 plants won over all reds. We especially recommend Robert E. Lee for the South and the Pacific Coast where it always comes full to the center. Robert E. Lee is the easiest to grow and handle. For exhibition blooms allow the plant to grow naturally until buds are formed, take out the terminal and next 2 buds, when it branches naturally. Leave as many branches as wanted, disbud, leaving the terminal bud only. For commercial cut flowers or for garden, take out center when 3 or 4 pairs of leaves have formed and allow to grow naturally, then remove terminal buds, disbud the branches leaving the terminal buds. This will give you the very finest commercial red semi-cactus blooms. Field-grown roots, \$10.00 each; plants, \$5.00 each.

Other 1931 Introductions

DWIGHT W. MORROW (Dahliadel 86), 1931 g. e. Informal Decorative. Named by Fred E. Dixon. Bloom 12" x 6". Bush 5 feet. A gigantic red dahlia that is admired by everyone. Not only does the size and form of bloom make all who see it ardent admirers, but its richness of color make it one of the most spectacular dahlias.

This dahlia likes heavy soil and will stand quite rich culture. It should be topped once or twice and disbudded for terminal buds. It is by far the most outstanding red dahlia. At the Atlantic City Show it won first in the informal decorative seedling class and we prophesize it will be a consistent winner in the informal decorative and red classes the coming season.

The above is the introducers description. We were so impressed by the appearance of this beautiful red decorative that we are offering it as a suitable decorative companion for our semi-cactus, Robert E. Lee. Field-grown roots, \$15.00; plants, \$7.50.

"RODMAN WANAMAKER," strong plants only, grown from selected stock, \$1.00.

A. LINCOLN S. C. Size 9" x 5". Height 5 feet. Color, bright spectrum red, reflex, rose red. The photograph shows the perfect form, large size, straight stiff stem. The plant is a strong vigorous grower of branching habit, producing the flowers facing on long, slender, perfectly straight stiff stems. This is the ideal red for all purposes that will fill a long felt want. One of the earliest to bloom, and always in bloom. Leave the terminal bud and disbud down four pairs of leaves. Handle the succeeding branches the same, and it is in full bloom until frost. Field-grown roots, \$5.00; strong plants, \$2.50.

Other 1931 Introductions—Continued

FRAU O. BRACHT (Berger) Cactus. Size 7" x 3½". Height 4 feet. Color, clear primrose. The flowers are beautifully formed with full centers and borne erect on slender stiff stems. It is a free bloomer and one of the best for exhibition, garden and cutting. Plants, \$2.50.

GRAF ZEPPELIN (Nolet). F. D. Size 6" x 4". Height 6 feet. Color, pure white. We consider this the best snow white of the Jersey Beauty type. It is a strong vigorous grower and good bloomer. Strong plants, \$5.00 each. 1930 Honor Roll and A. D. S. Certificate.

KARL BONAWITZ (Dahlidel 86) 1931 g. e. Semi-cactus. Height 6 feet. Chosen by and named for the noted organist, who was playing in Atlantic City during the Flower and Garden Pageant.

The entire makeup of this dahlia will appeal to the artistic. It has sufficient size to assert itself while the form, color, and keeping qualities make it graceful, as well as useful. It comes the nearest to developing a perfect bush without topping or disbudding of any dahlia we know, just naturally branches and produces perfect and uniform blooms on long erect stems. It responds, however, to disbudding, and will give you stems up to 4 feet in length. Color is a brilliant velvety carmine. Plants, \$5.00.

LINCOLN G. DICKEY (Dahlidel 85) 1931 g. e. Bloom 9½" x 5". Bush 3½ feet. Here is about the most prolific producer of fine blooms it has ever been our good fortune to grow. Semi-cactus. Primrose yellow with a decided rose suffusion. Disbud it and the blooms will be immense, grow it naturally and they will be of good size in great quantities. One of the earliest to bloom and among the last to finish. The growing habits are ideal, making this dahlia really great though not spectacular. Lincoln G. Dickey will be grown when many more spectacular dahlias have passed on. Won first in Atlantic City in Semi-cactus seedling class and has been recommended for certificate at the New Jersey Dahlia Society Trial Grounds 1930. Roots, \$10.00; plants, \$5.00.

Address Dahlland, N. J., is exclusive. Only Dahlland P. O. in the world; means perfect service.

KATHERINE KELLY Irregular Dec. Size 10" x 4". Height 4 feet. Color, rich glistening brownish red, shaded maroon. The reflex is lighter, and sets off the flower most effectively. The formation, as shown above, is entirely distinct and charming. This flower is also most unique, in that it is so different from what it appears.

Instead of being flimsy, the petals are very thick, heavy, and of such great substance that it not only keeps well, but stands up well under long shipments. Splendid and effective for exhibition, garden, and if the terminal buds are removed twice, a profuse cut flower variety.

Do not disbud this Dahlia to the crown bud only. Special instructions to grow Katherine Kelly will be sent with each order. We have had 15—8, 9 and 10 inch flowers on 2 feet stems, on a single plant. Strong plants, \$2.50 each; roots, \$5.00.

KATHERINE KELLY BEST RED. Katherine Kelly was named at the request of Mr. John Kelly of Bryn Mawr, Pa. Following our policy of sending complimentary plants, we were more than pleased at the reports. Not only was this outstanding variety the most admired Dahlia in Mr. Kelly's garden, but at the Ardmore Show won First as the Best Red.

HOW TO GROW. Katherine Kelly is an entirely new type. It should never be pinched back as it produces an enormous fleshy stalk, but dwarf. Allow it to grow naturally and take out the terminal bud. The branches grow from 2 to 3 feet long. Leave the terminal bud on the branches and disbud all the way down to the main stem. Result, 10 inch flowers on long stems with lots of foliage and the photograph shows what a beauty.

Other 1931 Introductions—Continued

J. D. TORBERT (Eastman) I. D. Size 8" x 4". Height 6 feet. Color, an artistic blending of salmon, apricot, flame and gold. A tall, strong vigorous grower and free bloomer with a new color combination. Roots, \$10.00; plants, \$5.00. 1930 Roll of Honor; Certificate of Merit by A. D. S.

TANG (Downs) I. D. Size 10" x 5". Color, bright, tawny orange flame, shading to a copper orange on the outside, with gold tints at the center of the flower. The outside petals have a clear buff reverse. This gives a wonderful color effect as the outer petals curl and twist. The shape of the flower is very like its older sister, Jane Cowl, with which it ranks. It is darker color with the higher center. Plants, \$7.50.

TARRYTOWN (Mc Donald-Waite) I. D. 9" x 4". Height 5 feet. Color, deep golden yellow, slightly suffused mauve, and tints of bronze. It is a strong vigorous grower and good bloomer. Strong plants, \$5.00.

WILL ROGERS (Eastman) F. D. Size 10" x 4". Height 5½ feet. Color, clear silvery lavender, flushed through with lavender and silver. The plant is a strong vigorous grower and free bloomer on good stems. Roots, \$10.00 each; plants, \$5.00.

CACTUS DAHLIAS

This collection embraces the Worlds Best Cactus Dahlias, including the incurved type. It includes all types and sizes from those dainty highly colored garden varieties, that bloom so profusely, to the giant flowered. Our stock is not only true to name but true to type.

AMBER GLOW. Size 8" x 4". Ht. 5 ft. Yellow shaded amber, with long narrow quilled petals.	Root \$0.75	MIRAFLORA. Size 10" x 4". Ht. 4½ ft. Color, white, tinted violet pink. The beautifully formed flowers are held erect, on long stems.	Root \$0.75
AMERICAN TRIUMPH. Size 8" x 3½". Ht. 6 ft. Color, bright oriental red. Winner of the American Home sweepstake at New York. A strong vigorous grower and free bloomer on long stiff stems. A real acquisition to the true cactus type for exhibition, cutting and the garden. Strong plants, \$2.50 each.	5.00	MME. ANNIE MARIE CHANTRE. Size 7" x 3". Ht. 5 ft. Color, bright rosy lavender or orchid color; splendid form and profuse bloomer on long slender but stiff stems.50
ANDREAS HOFFER. Size 6" x 3". Ht. 4½ ft. Color, soft coral pink with creamy center. Beautiful, early and profuse.75	MRS. EDNA SPENCER. Size 7" x 3½". Ht. 5 ft. An exceptionally fine variety for all purposes, large size, fine form and above all a free bloomer, on long erect stems. Color silvery lilac, shading to bright orchid pink.35
BALLET GIRL. Size 8" x 3½". Ht. 5 ft. Long very finely quilled petals. Color, orange tipped white; some flowers solid orange on same plant.75	MRS. LEO NIESSEN. Size 6" x 3". Ht. 4½ ft. Without question the very best cactus dahlia of its type and color. It is not only very bright and effective in early and midseason, being produced profusely on stiff stems, but late in the season, when so many varieties come open centered, it is always full and perfect. The flowers are splendid form and texture, hence splendid keepers, both on the plant and when cut. Color, a beautiful shade of scarlet red, blending to peach red at center of flower, with bright yellow at base of petal and at tips; a reflex sulphur yellow veined and suffused pale peach red. A splendid bright rich Autumn combination, at once most pleasing and effective.35
C. B. GITHENS. Size 7" x 3½". Ht. 5 ft. Color, clear light yellow. Splendid form, and an early and profuse bloomer, on long slender but stiff stems.75	MRS. ROBERT H. GROFF. Size 6" x 3". Ht. 4½ ft. This, in the opinion of our visitors, is the best pure white cactus. It is an extremely profuse bloomer. The petals are long, narrow and beautifully curled. The buds are long and pointed; the flowers perfect and full to the center. An ideal variety for garden and cutting.50
COCKATOO. Size 5" x 3". Ht. 5 ft. Clear yellow, tinted fawn, tipped white, of fine form.25	MRS. S. L. AUSTIN. Size 7" x 4". Ht. 6 ft. Color, snow white. Beautifully formed flowers are produced freely on long stiff stems.75
CONQUEST. Size 5" x 3". Ht. 4 ft. Rich glowing maroon; splendid form, with narrow petals.35	MRS. T. A. MUNRO. Size 6" x 3". Ht. 3½ ft. Fine exhibition flower, with long narrow incurved petals. Color deep golden yellow, shading to richest golden bronze.25
CRYSTAL. Size 5" x 3". Ht. 5 ft. Color, beautiful clear shrimp pink, with long slender incurved petals.50	NAGEL'S ROEM. Size 7" x 4". Ht. 5 ft. Color, buff yellow tipped rose. Splendid form on long slender, stiff stems.	1.00
ECLIPSE BEAUTY. Vermilion, tipped yellow.	1.00	PIERROT. Size 7" x 3½". Ht. 4½ ft. Very long incurved petals; deep amber, distinctly tipped white, sometimes solid amber. A magnificent exhibition and garden variety.50
EDITH CARTER. Size 5" x 3". Ht. 5 ft. A soft bright yellow, suffused and heavily tipped bright rosy carmine. Of fine form, and produced freely on long stiff stems. An unusually lovely variety.35	PINK ROSEBUD. Size 4" x 3". Ht. 6 ft. Color, pure pink. The loveliest little pink cactus grown. An early and profuse bloomer on long, stiff, slender stems.25
F. W. FELLOWS. Size 8" x 3½". Ht. 5½ ft. Flowers composed of numerous long narrow incurved petals of a lively orange scarlet. This is one of the finest Autumn shade varieties. Should be in every collection.75	PREMIER GEORGES CLEMENCEAU. Size 7" x 3". Ht. 6 ft. Color clear canary yellow, tipped pure white, sometimes solid yellow.75
GAILLARD. Size 4" x 2½". Ht. 4 ft. Color, rich vermillion. An early and profuse bloomer.25	PRIMA DONNA. Size 6" x 3". Ht. 6 ft. A free bloomer on long stiff stems. Pink with lighter center.25
GLADYS BATES. Size 7" x 3½". Ht. 4 ft. Color tan, with rose reverse. An early and extremely profuse bloomer.50	RHEINISCHER FROHSINN. Size 6" x 3". Ht. 5 ft. Rich crimson carmine, white at base of petals, distinct and striking. One of the most brilliantly colored.35
GOLDEN SONNE. Size 6" x 3". Ht. 5 ft. Color, clear yellow, shading to rich golden apricot at the center. Beautifully formed and free bloomer on long, slender, stiff stems. Plants, \$1.25.	2.50	RUBE GIRL. Size 5" x 3". Ht. 3½ ft. Color soft yellow, suffused, overlaid and tipped coral red, giving the flower a bronzy effect, that lights up wonderfully under artificial light.25

MARIE Dec. 1930. Size 7" x 3". Height 3½ feet. Color, luminous delicate pink. It has a freshness and brilliancy lacking in Jersey Beauty. It is an early and free bloomer, with full center to the last. The illustration shown above was taken by the natural color photography, October 27, 1928. The flowers are larger than Jersey Beauty, and it is a much more profuse bloomer. The plants are sturdy, of branching habit, and ideal for the garden. On account of the wonderful color, stiff stems and keeping qualities, it is especially valuable for all purposes. Roots, \$2.50 each; plants, \$1.25.

SPECIAL OFFER No. 1. One strong root each of President Hoover, Eliza London Shepard and N. J. S. C. C., as shown in natural colors on first, second and third cover pages, for \$18.00.

SPECIAL OFFER No. 5. One strong plant President Hoover, Eliza London Shepard, N. J. S. C. C., Peter Pan, Marie, Ty Cobb and Peacock, as shown in natural colors on the 4th cover page and pages 9, 10 and 27, 7 plants in all, for \$17.50.

TY COBB

TY COBB Hybrid Decorative. The name tells the story. This dahlia was selected by Ty Cobb because he liked it. Every one of our visitors, the past season, stopped to admire Ty Cobb. Sometimes it was the wonderful plant, or the beautiful form, or the large size, but always it was "what a wonderful color, and such a good bloomer." And that is just it. It has "it" in its every characteristic. The plant is a strong vigorous grower, with dark green glossy leaves; an early, free and continuous bloomer. The flowers are large, 8 to 10 inches in diameter and 5 to 6 inches deep. The form, as shown, is the graceful hybrid type, between the hybrid cactus and decorative, with back petals reflexing to the stem. Height, 3½ feet.

But, it is the color that is its chief charm. Brilliant glowing garnet, shading deeper, with a most lustrous sheen. The reflex is a luminous crimson purple.

Ty Cobb has been such a wonderful seller that we have been unable to work up a stock of roots. It is going to be in great demand for years to come. It just grows and blooms freely. Hundreds of letters tell us of the wonderful success with Ty Cobb. Even where the weather was most unfavorable the past season and some plants made poor roots, there was no complaint of Ty Cobb. In our 1930 catalogue we offered "strong plants, that will bloom and make roots, ready April 15th until June 15th." Everyone of the hundreds of letters told of the wonderful color, size and freedom of bloom, and only a few failed to make roots that would keep over. This was because of the unexpected demand, plants were sent out as late as July.

This year we have a few roots to offer at \$5.00 net, each, until the limited supply is exhausted. Strong plants, \$2.50 each.

KING MIDAS Dec. Size 12" x 5". Height 4 feet. Color, pure golden yellow. Form perfect; stems, long stiff and straight, holding up the giant flowers. First prize winner everywhere last year. Rated as one of the six greatest of all exhibition Dahlias, and the greatest of all golden yellows.

The plant is a strong sturdy grower, absolutely healthy, and an early free and continuous bloomer. The flowers are so full that they last on the plant for weeks. Just pull out the back petals from time to time and that wonderful center does the rest. Any of the branches will give 12 inch flowers if fed. For cutting, top out twice, otherwise, the flowers are too large. The illustration shown above is reproduced from a photograph taken October 19th. Note the full high center, at a time when most of the big fellows had open centers. Derrill W. Hart says:—"King Midas (Peacock) Decorative. Last year we prophesied success for this good yellow. It has gone far beyond our prophecy, and in our estimation it is one of the six greatest exhibition Dahlias of Eastern origin. King Midas is a one tone golden yellow flower of great depth, and produces six and seven perfect blooms at one time." Roots, \$5.00 each; plants, \$2.50.

"KING MIDAS" has never been beaten in open competition. Acclaimed the greatest golden yellow!

SANTA FE Hybrid Cactus (1929). Size 10" x 4". A gigantic flower that is easily the largest, handsomest and most outstanding yellow Hybrid Cactus. This was raised for, and named by the most enthusiastic amateur Dahlia grower in Santa Fe. Yellow is the City color, and of course the Cactus, the universal flower. The flower is of enormous size, and as shown above, even in mid-October, has great depth of flower and a full high center. It has similar foliage and habit of growth as its parent, Rodman Wanamaker, and should be grown the same as described on page 1. In formation, it is somewhat like Mariposa, but is larger, deeper and more massive in every way. The color is a clear, soft light yellow. Roots, \$4.00; plants, \$2.00.

SEMI-CACTUS DAHLIAS

This class now separated from the narrow petaled cactus varieties, are intermediate between the cactus and informal decorative. The flowers are fully double with the margin, and the majority of the petals revolute for less than one half of their length. In other words the petals are broad at their base but revolute or recurved at the tips, giving them a pointed appearance.

A. H. S. '23 F. D. Size 8" x 4". Height 4½ feet. Color, clear canary yellow, without tint or blemish. It is a strong vigorous branching grower and the earliest to bloom. For exhibition it must be disbudded. As the photograph shows, it is perfect form with beautiful full high center. It is the best yellow for a garden plant and by topping out and disbudding it is the best clear yellow commercial cut flower. Every flower is perfect. Field-grown roots, \$2.00; strong plants, \$1.00.

Visit Dahlland and you will see the superiority of Peacock dahlias. Healthy, strong, beautiful and blooming profusely.

MARY DORR Cactus. Size 7" x 3½". One of the most beautiful of all cactus dahlias and the best of the deep pink and white type. A great improvement over Margaret Bouchon inasmuch as it is not only larger and better formed, brighter colored flowers, but a much better grower and more profuse bloomer with better stems. The color is bright tyrian pink, blending to white at center of flowers and tips of petals; reflex amaranth pink. The form is perfect, with long, twisted somewhat incurved petals. The flowers are produced freely on long slender, but stiff stems. The plant is a strong, vigorous grower. As a commercial cut flower, it was the best of this type during the past four years. A splendid garden and exhibition variety. 4 ft. Roots, \$0.75; 3 for \$2.00; 6 for \$3.50; 12 for \$6.50.

Our guarantee has no limit. Satisfied customers telling their friends, made us the largest growers in the world.

ROBERT H. GROFF I. D. Size 9" x 5". One of the most sensational seedlings we have ever raised. It is a seedling of "Attraction," but decorative in form. A very sturdy grower and produces the giant flowers on long graceful, rigid stems. Full regular decorative form and as it is much larger than Attraction it is more popular for exhibition and cutting than that variety. The illustration above shows its resemblance to Attraction in the back petals. It also shows the full high center. The flower is very deep through. The color is softer and lighter than Attraction. The plant is a strong, vigorous grower and free bloomer. The flowers are always full to the center. Roots, \$2.50; plants, \$1.25.

Three New Margined Dahlias

Once more we are enthusiastic. Each of these three varieties are different in form; also while each is margined, each margin is a different color. Again, there is a still greater difference insofar as the bottom flower, not only so splendidly formed and marked is the first real Fragrant Dahlia.

FRAGRANCE. Each petal is snow white, with a broad margin of bright scarlet red. The form is absolutely perfect. The plant has beautiful serrated or fern-like foliage, and the flowers are borne erect on stiff, slender stems. Fragrance is a dainty little plant, and will quickly find its way into every garden, and used wherever real beauty and charm are appreciated. 75c.

ARDENA. White edged bright amaranth purple, with broad white tips. This is also a true single, but more informally built. A larger flower and plant than Fragrance. 50c. each.

PRUDENCE. No reason at all, excepting Prudence had a bright, piquant, expectant face, and so admired it. Color, white suffused tyrian rose, tipped pinkish white; outer edges of petals margined deep tyrian rose. 50c.

SPECIAL OFFER No. 9. One strong plant each of Fragrance, Ardena and Prudence, 3 in all, by mail postpaid, for \$1.50.

AVIS. White suffused rose, edged bright carmine, tipped pure white. Splendid form and stiff stems. . . \$0.50

DORIS. Brilliant carmine, heavily tipped pure white. Very distinct and striking.50

JACQUELINE. A glance at the illustration will not only show the beautiful formation, but give an idea of its rare color combination. Note the lighter halo around the yellow disc. Next comes the rich velvety maroon that so vividly contrasts with the pure white tips.1.00

LEONE. Lemon yellow and white at base of petals; middle of petals and edges, rich carmine richly shaded, with white tips.75

MacDUFF. A large, well formed single that is most pleasing and effective. Base of petal is lemon yellow, shading to velvety scarlet at center, and tipped yellow.35

SPECIAL OFFER No. 11. One strong root of each of above beautiful tipped Single Dahlias for.2.50

THE DAHLIA

By Lawrence K. Peacock

A practical treatise on the habits, characteristics, cultivation and history of the Dahlia. A book which every one can read and enjoy. It is really an outline of the history and development of the Dahlia from information gleaned from the old master growers of Europe and America up to the writers entry into Dahlia growing in 1884. It gives the richness of his experience during the past 46 years.

A book of 122 pages, and in addition 15 full pages of interesting and instructive illustrations.

It is the last word in Dahlia Growing.

By mail, postpaid, \$1.25.

SATISFIED CUSTOMERS OUR BEST ADVERTISEMENT

With the multiplicity of numbers of newspapers, magazines and periodicals, many of which are created for the sole purpose of advertising, a careful checking of the past few years shows a great falling off in comparative returns. It is not inquiries that count, but sales.

A complete checkup of the past ten years shows 52% of our new business is from recommendations of satisfied customers. We have therefore decided to recognize our best advertisers in a way we believe most acceptable to them, at the same time showing our appreciation. If you are interested, read carefully page 31.

CENTURY DAHLIAS

ANNETTE. Size 4". Ht. 3 ft. Root
Most distinct. Bronzy yellow at
base, balance of petal amaranth
pink, with veins of cream. \$0.35

BLACK CENTURY. Size 6". Ht.
5 ft. This is the largest, darkest,
richest of all the big century
Dahlias. Dark maroon, shaded
black. The flowers when first
opening are jet black, with a
most lustrous sheen. The flow-
ers are beautifully formed with
long petals. They should be cut
as soon as they open, before the
centers have developed pollen.
They will then keep as long as
double Dahlias. Singles should
be disbudded the same as
doubles, except leave the termi-
nal and next two buds. Cut as
soon as first bud opens. The
others will open up, and the
bouquet will keep for a week.75

Color, white heavily tipped
cerise.25

FAIR LADY. Size 6". Ht. 5 ft. This is one of the New-
port Wonder type, but considered much better. Petals
are long and beautifully distinct. Color a most pleasing
combination of amber yellow and spectrum red.75

GEO. YOUNG. The best clear, canary yellow. Large
on long, stiff stems.50

GIANT CENTURY. Size 6". Ht. 4½ ft. Largest of
all, splendid form and beautiful color combination.
Yellow at base, shading to bronzy salmon and crim-
son with lighter tips. An early and profuse bloomer.35

GLOXINIA. Size 5". Ht. 4 ft. In marking and
brilliance of color resembles the gloxinia so much as to
suggest the name. Color, orchid pink with rich crimson
blotch.25

JAMES WELLER. Size 5". Ht. 5 ft. A magnificent
variety that we had to omit from our catalogue last year
on account of heavy sales depleting our stock. Large
size, perfect form, held erect on long straight stiff stems;
rich golden yellow, with the central third of each petal
soft rosy red. The two colors blend most harmoniously
and are very effective. An early, free and continuous
bloomer.50

JESSIE. Size 5½". Ht. 5 ft. Large size, pure snow
white of beautiful form on long stems.35

JOSEPHINE. Size 5½". Ht. 5½ ft. Large, pure
white of very heavy texture and regular form, on long
cane stiff stems.35

MARGIE. Size 4". Ht. 3½ ft. This is a very striking
variety. Color, bright garnet, shaded maroon, with a
brilliant halo, or zone of white around the yellow center.50

Types of New Century Dahlias showing their decorative possibilities

NEWPORT WONDER. Size 6". Ht. 5½ ft. Color, rose
pink, with a cold suffusion. Petals pointed, ruffled and
slightly twisted. A very popular and artistic variety. . . . \$0.50

NEW SCARLET CENTURY. Size 4½". Ht. 4½ ft.
This is a great improvement on the old Scarlet Cen-
tury; not only a larger flower, but brighter, richer
color, absolutely perfect form, each petal being ex-
actly alike. A profuse bloomer, held erect on long
stiff stems.35

OCALA CENTURY. Very large, clear red, tipped yellow;
very effective.25

PANSY. Size 4½". Ht. 4 ft. Richest glowing maroon,
shaded black and tinting bright glowing crimson at tips
of petals. Base of petals bright yellow, producing the
bright yellow zone around the yellow disc. Very striking
and effective. 1.00

PEACHES and CREAM. Size 5½". Ht. 5½ ft. A
variety of such loveliness that we have always sold
out before we could work up a stock. Color cream,
suffused peach pink.35

and yellow halo around the golden center. \$1.00

POINSETTIA. Brilliant poinsettia red and wonderful
formation. 10" flowers on long stems. 1.00

DAHLIA CULTURE 1930. The illustrations showing the proper way to disbud, as described makes success assured.

PEACOCK Formal Dec. Size 6" x 4". Height 4 feet. Color, dark purplish red, shaded maroon, tipped white. It is considered the best of this type. The flowers are of regular decorative form, and an early and free bloomer, on stiff stems. Like all variegated flowers, occasionally a flower will come solid color on the same branch with the true variegated form. On account of the heavy demand, our stock was so depleted in 1929 that we offered it without illustration in our 1930 catalogue, in order that we could work up a sufficient quantity to again offer it with catalogue illustrations in 1931. We guarantee all our stock to be tipped the same as the above illustration. When the whole plant sports dark, it is one of the finest of the rich maroons. The flowers and plants, both being very much larger.

To keep Peacock true to type, always select plants that are fully variegated. Strong roots, \$1.00; 3 for \$2.75; 6 for \$5.00.

Pompon Dahlias, so lovingly called "Baby Dahlias" by so many of our visitors, are really a small type of the old "Show" and "Fancy," now properly called "Ball" Dahlias. The Pompon or Lilliputian Dahlias were supposed to be 2½ inches in diameter, or under, but at present the size has been reduced by many societies in their judging at exhibitions, to 2 inches or under.

It is therefore very essential that you have not only the color and form, with full rounded center, but the small size. All the above collection, described on opposite page were photographed and reproduced actual size. Pompon Dahlias should not be disbudded, but pinched out twice, so as to give the multitude of small flowers on slender stems that can be cut with buds and foliage, and used so effectually for dainty bouquets, especially for small baskets, vases and boxes.

As plants, they can be used for beds, borders, children's gardens, and those tiny plots where the large plants would be out of place. Again, they keep so long on the plant, and after cutting.

SPECIAL OFFER No. 3. One strong root each of the 12 Pompon Dahlias, shown in natural colors on page 28, and one each of Clarissa and Snowclad, 14 in all, for \$4.00.

Pompon or Lilliputian Dahlias

This class is a miniature form of the show or ball Dahlias, having the same round, ball-like form, but much smaller in size. The plants are also smaller, of branching habit, producing the flowers in endless profusion. As they can be cut in sprays they are valuable for bouquets and for small grounds. Some varieties have miniature roots also. We make a specialty of Pompons.

"FRAGRANCE," illustrated and described on page 12, is not only fragrant, but exquisitely beautiful.

WORLD'S BEST DAHLIAS

What are World's Best Dahlias? Who is competent to name the World's Best Dahlias? We can think of no better answer than to copy the words of a real Dahlia authority, under the heading, Select List of Varieties.

"In a little work of this kind any arbitrary list of varieties is out of place. This is because different varieties do better in different places, on different soils, in different latitudes and in different climates; and, then again personal opinion, likes and dislikes vary so that no one could make up a list to fully satisfy another. No person has sufficient knowledge of all the varieties grown in a country as large and diversified as ours. Again new varieties are being created and introduced in such quantities continually, that a complete list today would be out of date tomorrow."

DAHLIALAND

Here we gather the best Dahlias we can find from all quarters with which to test out our own creations before introducing them. Here are the largest Dahlia trial and experimental grounds in the world. Acres are devoted to these trials and experiments, where every variety is handled just alike, in order to get the absolute relative values of all.

It is this thorough testing of all our varieties alongside of the best of the other growers that enables us to guarantee our new creations to be the best of their color and type. We give a shining example; we had a wonderful bronzy variety, the color of Treasure Island, not quite so large but a better center, longer stems, more slender but rigid, an extremely profuse bloomer but it was soft, it would not hold up after being cut. We discarded this variety in favor of Treasure Island which was an early free bloomer and a splendid keeper. While we, like everyone, like to introduce new Dahlias that are distinct and meritorious, we owe

Congressman Wolverton I. D. (See page 2)

it to our customers and to our reputation to grow and offer only the best, no matter who raised and introduced them or where they came from.

INTRODUCTION OFFERS

For reasons stated on page 25, have decided on a new policy in introducing our new Dahlias. In other words the six varieties that are second to none in their type and color.

ELIZA LONDON SHEPARD. The greatest orange gold informal decorative. \$10.00.

ROBERT E. LEE. The greatest red semi-cactus, \$10.00.

CONGRESSMAN WOLVERTON. A cross of Rodman Wana-maker and Jersey Beauty, with all of the good qualities and none of the failings of both. \$10.00.

FRAZIER. The best red and yellow formal decorative. \$5.00.

KATHERINE KELLY. A new type, won first as best red with a 10-inch flower. \$5.00.

KATHRYN CHARMAN. The most spectacular and effective Autumn shade exhibition Dahlia in existence. \$5.00.

FREE INTRODUCTION OFFERS AS FOLLOWS

To any customer, new or old, remitting \$25.00 for an order, we will give absolutely free any one of the \$5.00 varieties mentioned above. To any one remitting \$50.00, we will give any one of the \$10.00 varieties mentioned above or any two \$5.00 varieties. In other words, for each \$25.00 we will give free one of the \$5.00 varieties and for each \$50.00 remitted one of the \$10.00 varieties up to \$225.00, with which we will give free the six World's Best varieties mentioned above, value \$45.00.

This is done absolutely to introduce these wonderful World's Best Dahlias and to show our appreciation to our customers for recommending our Dahlias to their friends.

These introduction offers above are not subject to any conditions whatever except the amount of money remitted. The bargain collections are accepted and you are entitled to the regular extra free Dahlia selections just the same. They are given free absolutely. Do not think this is getting something for nothing. We spend many thousands of dollars yearly in advertising, the bulk of which is not profitable, so we are taking this, our most profitable advertising method to prove to everyone the superiority of our new Dahlias over existing varieties. In other words, we want you to know our Dahlias as we know them. We want you to grow them in your garden. We invite comparison. "The proof of the pudding is in the eating."

FREE DAHLIAS FOR NEW CUSTOMERS

To every customer who will get three of their friends, who are not customers of ours, to send us in a trial order, to further demonstrate the superiority of our new Dahlias, averaging \$5.00 each, we will send free Dahlias to the amount of \$5.00.

To any customer who sends in orders from three friends who are not our customers can select anything from this catalogue, any special offer, to one-third of the amount of the aggregate amount of the three orders.

NEW PINK SPORT OF MRS. J. HARRISON DICK

PINK DICK. This is absolutely a sport of the celebrated Mrs. J. Harrison Dick, recognized as one of the most perfect Dahlias grown as to health, vigor, early and profuse blooming, branching habit with rigidly stiff stems. All of these characteristics are in the pink sport, together with the beautiful clear pink color. Last year a single order for 2000 blooms came from New York City for a wedding decoration.

By pinching twice and disbudding you can get stems from two to four feet long, just according to how many pairs of shoots are removed from the stalk at the base of the leaves.

The roots are \$2.00 each. We are going to advertise this wonderful garden and commercial flower as a special introduction offer to demonstrate Peacock quality and to get acquainted, together with our catalogue, by mail postpaid for 50c.

To any customer who will send us the name and address of three friends who grow Dahlias and are not customers of ours, together with \$1.50, we will mail direct to each one this wonderful new \$2.00 Dahlia and our catalogue and will send to the customer, this \$2.00 root absolutely free.

FREE!—Your Own Selection of Varieties—FREE!

In the past, we have added extra roots of our own selection, which in many cases were duplicates of what the customers already had. Also, many wrote asking for changes in collections as they had some of the varieties. So to avoid above and to allow every one to make his own selection, we have listed below a very comprehensive collection of the very best, of their types and classes, that we grow in large quantities.

On any and all orders selected at the regular price, you may select from the following list to the amount of $\frac{1}{4}$ extra. For example on an order for \$4.00, you may select to amount of \$1.00 from list below. On an order for \$12.00, you may select from this list to amount of \$3.00 extra.

NOTE.—This does not apply to any Special Offer, Collection or special quotation; but to any and all varieties at the regular catalogue price. The extra varieties must be selected from the following list.

SPECIAL.—To any one wishing to order the above collection complete, we will send one strong root of each of the 36 varieties, labeled, for \$25.00.

Every root goes out with our iron clad guarantee of entire satisfaction. It is not so much this guarantee that has made us the largest growers of dahlias in the world as the superiority of our stock, which makes such a guarantee possible, and our quick and cheerful adjustment of anything that is not satisfactory.

We also wish to acknowledge and thank our thousands of customers for their letters of thanks and appreciation. We appreciate your letters of praise for our dahlias, for your success is our success. We also appreciate your writing us of any failure, as in this way we learn many things about different varieties, in different locations, under different soil and climatic conditions.

EIGHT EXQUISITE PRIMULANUS HYBRIDS

These are the orchid like flowers so much admired, because of their long graceful spikes and brilliant colorings.

ALICE TIPLADY. A soft coppery bronze. The finest of its type; large size; splendid form and texture.

BUTTER BOY. Rich yellow with bright red markings, a beautiful and effective variety.

MAIDENS BLUSH. Enchantress pink flowers of finest form on stiff slender stems. The most beautiful pink.

MYRA. Salmon scarlet on yellow ground; large flowers, bright and effective.

PRIMULANUS. A rare species from South Africa. An exceedingly early bloomer, with long spikes of primrose yellow flowers.

SALMON BEAUTY. Deep salmon, with salmon yellow throat; large flowers on long graceful spikes.

SIMPLICITY. A beautifully formed flower, and well placed on long spikes; color, clear lemon yellow, with distinct red throat markings. Very effective.

SOUVENIR. Pure, clear golden yellow. The most beautiful yellow in Gladiolus.

Any of above, 6c. each; 6 for 30c.; 12 for 55c.; 25 for \$1.00; 100 for \$3.50.

SPECIAL MIXTURE of above varieties for \$3.00 per hundred; \$27.50 per thousand.

WALDHEIM SUNSHINE I. D. Size 12" x 4". Height 6 feet. Color, deep golden yellow, shading to chrome yellow at the center, while the reflex is lightly suffused scarlet, giving a deeper tone at the center. The form, as shown in the illustration is everything that can be desired. It has great depth with a full high center. The flowers are always perfectly double until killed down by late frost. Note the giant flowers are held facing to upright on stiff stems. Note the exquisite formation of the flower in above photograph held so regally on the cane stiff stem. Waldheim Sunshine is a winner everywhere. It was in the 1927 Honor Roll, again in 1928 and the list of immortals in 1929. It is not only an outstanding flower but a very strong vigorous grower and good root maker. Field-grown roots, \$5.00 each; strong plants, \$2.50 each.

Second National Atlantic City Flower and Garden Pageant

September 4th to 10th inclusive, 1931. Inaugurated last year for the first time, this great event in the world of Horticulture became a fixture, staged in the largest and finest show hall in the world. The pageant offers to garden lovers a two fold opportunity. First, to exhibit the products of their own gardens for the many fine prizes offered, and Second, to view the newest and finest in garden plants, arranged by the worlds leading landscape architects.

Peacock Dahlia Farms invite their customers to plan and plant for this occasion. Complete information and schedules, all classes, may be secured by writing: J. W. Johnston, Director. The Bourse, Philadelphia, Pa.

The Peacock Dahlia Farms have growing exhibits on the White Horse Pike and are situated only 1½ miles South.

After viewing the best in Dahlias at the Pageant, we cordially invite all visitors to visit Peacock Dahlia Farms and inspect the largest and most complete Dahlia trial and experimental grounds in the world. Here are the best Dahlias gathered from all quarters including our own creations. **VISIT DAHLIALAND. HOME OF THE WORLDS BEST DAHLIAS.**

"RAY WARNER." The miracle pink for 1932. The medium height, all bloom, luminous pink.

New Jersey State Chamber of Commerce. Type of Bashful Giant

N. J. S. C. C. Decorative. This is New Jersey State Chamber of Commerce, and in a Dahlia way about as big as the name. It is a monster, of the Bashful Giant type. It was exhibited at the Annual Meeting at Newark on October 17th, by request, and named by President Hamilton. It is big in every way. You see what a beautiful full high center it has, and the depth of the flower by the tier after tier of back petals. Then the color is most charming, that exquisite shade called Orchid. The flowers have great substance, and keep well. The plant is a sturdy grower, of the Bashful Giant type, and a free bloomer for so large a flower. It is a sturdy, rather than a rampant grower, which accounts for its fine keeping qualities. Roots, \$5.00 each; strong plants, \$2.50.

SPECIAL OFFER No. 6. For those who would like to grow the bronze Bashful Giant and the orchid colored sport, as shown above, we will send one strong root of each for \$3.25.

SPECIAL OFFER No. 7. One strong plant each of N. J. S. C. C. and Ty Cobb, for \$3.50.

This is a most uniquely contrasting collection. N. J. S. C. C. is the most delicate orchid color, on a massive heavy flower, while Ty Cobb, the most colorful figure in baseball, is the most exquisitely formed, yet the most richly colorful of all Dahlias. The reproduction on page 10 gives you only an idea; you must see the plant blooming in its rich glowing colors, and you will understand its appeal to Ty Cobb.
